

CampusVue Student Academic Records

CAMPUSSM
MANAGEMENT

“ CampusVue has enabled all our staff members to see the data much more quickly and analyze different directions that we need to take by looking at the data. ”

Nicole Lacy
Application Support Administrator
Sullivan University

CampusVue Student

CampusVue[®] Student is the leading student information system for today's institutions of higher learning. Administrators and faculty leverage centralized data and automated workflows to improve recruiting, retention, academic delivery, and student services, while business officers gain a 360° view of campus operations for strategic analysis. The integrated product suite is designed to streamline and speed administrative tasks and offers modules for recruiting and admissions, academic records, financial aid automation, student accounts, housing management, career services, and reporting.

Seamless Enrollment, Advising, and Academics

College and university administrators no longer have to consolidate and manage student records from disparate sources manually. CampusVue Academic Records does the job for you. This powerful module can automatically track programs, catalogs, sessions, and registrations, make grades available, flag students in need of additional help, and update the financial aid department on satisfactory academic progress relating to Title IV compliance. It also makes it much easier for institutions to consolidate data for compliance with federally mandated reporting requirements such as IPEDS.

CampusVue Student Academic Records

Integrate and Automate Academic Records

CampusVue Academic Records offers robust features that benefit educators, students, and staff. An innovative online advising workflow is available through a dynamic portal, the first e-advising suite of its kind in higher education administrative systems — and it is included as part of CampusVue Student.

- Track programs, catalogs, sessions, and registration
- Monitor student progress and attendance
- Batch-process report cards and transcripts
- Post grades and attendance online
- Manage transfer credit articulation process with ease
- Enable students to register online, and view degree progress audit information, and schedules
- Track coursework for students based on major; customize courses to meet student needs
- Update the financial aid department on satisfactory academic progress, enabling more accountable Title IV compliance practices
- Track facility use, student lessons, exams, and more
- Track and pay distance education instructional staff based on lessons completed
- Specify more complex rules for prerequisites and/or co-requisites
- Enable variable add/drop dates and course repeats

Enhance Degree Audit Details

- Display each category and course required for a program, each course's status, and the grade posted
- Execute online comparisons of a student's current academic records to degree program requirements
- Perform hypothetical analysis to assess degree progress against a proposed academic program
- Customize or change academic programs for students in minutes

Organize and Automate Enrollment Tasks

CampusVue Academic Records enables institutions to define enrollment requirements, elective pools, and prerequisites. The module also helps students access program information and register online.

About Campus Management Corp.

More than 1700 colleges, universities, foundations, and nonprofit organizations worldwide rely on Campus Management Corp® for efficient, scalable, and flexible enterprise software products and services. The company's CampusVue Ecosystem is a fully integrated, centralized administrative and e-Learning platform that unifies services, academic delivery, administrative management, and reporting for a full range of public, private, and proprietary postsecondary institutions. The platform connects multiple sites and catalogs, enables flexible terms and multiple enrollments, and integrates economically to other leading applications, including software for Constituent Relationship Management (CRM), and learning management systems such as Blackboard® and Moodle®. Clients include Mercer University, Baker University, National University, Indiana University, and Kaplan University.

Provide Instructors Online Tools

Taking attendance. Tracking lessons and exams. Whether it is a classroom setting, an online course, or a hybrid of both, CampusVue Academic Records saves instructors hours of manual processing by enabling online administration of many routine tasks.

Address Federally Mandated Report Requirements

Use the report features built into Academic Records to retrieve IPEDS survey information, potential graduate information, and demographic and population analysis information on demand.

Track Multiple Enrollments

CampusVue Academic Records centralizes the records of students enrolled in multiple programs and at multiple campuses, ensuring a complete view of their academic requirements and progress.

Forecast Number of Students

You can quickly and accurately forecast the number of students for a current or upcoming term without having to run and piece together multiple reports.

The CampusVue Ecosystem Unites Academics and Administration

- Student information system for integrating departments and workflows
- Moodle-based e-Learning for online and blended academic delivery
- Self-service Web portals for students, faculty, administrators, advisors, and employers
- Finance, HR & payroll for fund and net asset accounting and employee self-service
- Performance analytics for a 360° view of multi-campus operations
- CRM solutions for strategic enrollment management, e-advising, and alumni relations
- Fundraising solutions for advancement and foundation programs
